Nx Witness

Generation 6

Professional

is the latest iteration of Network Optix's perpetual offering, Nx Witness Pro VMS, designed for efficiency and optimized control in video management. This major release refines system operations and enhances workflows.

Enterprise

Is Network Optix's official entry into subscription-based (SaaS) solutions, specifically designed for large-scale intelligent video and data management. In addition to all the features available in Gen 6 Pro, Enterprise introduces enhanced capabilities and an exciting product roadmap for future developments.
